

# Environmental Policy

*As a global leader in precision manufacturing and measurement technology, GMSM is committed to sustainability through its policies and procedures to conserve our natural resources. In providing a framework of Environmental goals and objectives based on regulatory compliance, stewardship and continual improvement, GMSM Management is committed to supporting environmental protection and employee health and safety.*

GMSM's EHS goals and objectives:

- Conduct operations in a manner that protects the environment, employees and community.
- Comply with all laws and regulations applicable to its operation and work within the framework of the Environmental Management System ISO 14001.
- Reduce environmental risks throughout its operations by identifying risk, setting performance standards and using best practices.
- Minimize the use of hazardous chemicals and reduce hazardous waste generation whenever feasible.
- Provide EHS training and instruction at all levels to motivate and to ensure that proper procedures are followed.
- Communicate this policy to all employees and other interested parties.
