

Smart Systems

March 28-30, 2019
Hall 3, Booth C75

Total Gear Solutions

Gleason

We cordially invite you.

We look forward to welcoming you at our booth C75 in hall 3 at MECSPE in Parma, Italy
to present our new systems for smart gear design and manufacturing.

With very best regards

Perfect Fit for Growing Inspection Challenges

The Gleason 300GMS® Gear Metrology System inspects all types of gears including smaller fine pitch gears as well as gear cutting tools. Inspection methods include surface roughness, CMM, Barkhausen and many more. The 300GMS features high accuracy 3D scanning probes with a broad range of styli, a stylus calibration library, optional automatic probe changer and it comes Closed Loop ready.

Bevel Gear Manufacturing

Gleason bevel gear manufacturing systems are available for many different applications, including the revolutionary Pentac® Mono Cutter Head which features one blade type only and longer tool life than ever before.

Tools, Workholding and More

Experience Flex-Grip® and Flex-Spand™ universal workholding solutions for the manufacturing of prototypes and quick-shots and learn about the benefits of Gleason Segmented Collets.

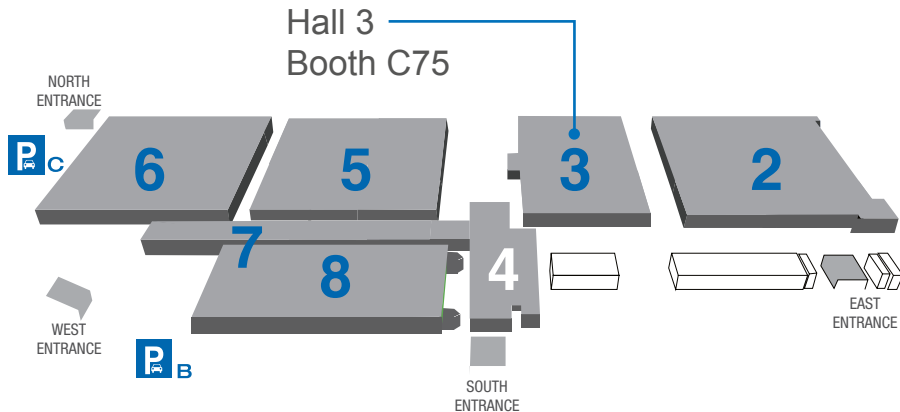

Digital Manufacturing

Digital Manufacturing has many different faces: Learn about Gleason Fingerprint Machine Diagnostics, Gleason Connect Digital Services and and Smart Loop Manufacturing Systems including Gear and Transmission design.

We look forward to
welcoming you.
